Greetings Community Members,

Election day is just around the corner, November 3rd to be exact! What an exciting time for our country as we exercise our right to vote in the upcoming presidential election. As exciting as this may seem for some of us, we recognize that some communities may face challenges or anxiety leading up to election day. More importantly, due to COVID-19 and the current CDC guidelines we know voting in-person may be overwhelming.

As a result, we strongly encourage Nevadans, specifically those with underlying health conditions and those a part of the disability community to participate in early voting. Early voting allows all registered Nevadans to cast their vote, in an often, less crowded setting. Anyone interested in participating in early voting can go to any location where early voting is offered. For more information about early voting, locations and alternative voting options please visit the Secretary of State website (https://www.nvsos.gov/sos/elections/voters/early-voting-information).

Early voting begins October 17th, 2020 through October 30th, 2020 let’s make the vote count!

Best,

Khianti Thomas, Deaf Commission, Executive Director
Dawn Lyons, Nevada Statewide Independent Living Council, Executive Director
Jack Mayes, Nevada Disability Advocacy Law Center, Executive Director
Kari Horn, Nevada Governor's Council on Developmental Disabilities, Executive Director
